

Quality Enhancement Plan Executive Summary

In support of the Indian River State College Mission to promote student success by offering high-quality, affordable, and accessible education, IRSC has developed a Quality Enhancement Plan (QEP) titled **Math At the Root of Success (MARS)**. *The purpose of the IRSC QEP (MARS) is to create an institution-wide initiative that is committed to improving student learning and success through the course redesign of Intermediate Algebra (MAT 1033).*

This faculty-led initiative is the result of a broad-based, comprehensive effort that has included all stakeholders. This initiative is in support of the Indian River State College commitment to the Completion Agenda which seeks to double graduation rates by 2020. To accomplish this completion goal, it is imperative that more students be retained through strategies designed to minimize barriers to graduation. This QEP
